25X1A		Ru on to do to	It will be an OCD-IBM printed alphabetical listing of the Russian term (for a Government Ministry, institute, official, or organization) with the standardized and approved English translation thereof. FDD has done the basic cards. OCD will do the running and printing. For convenience wants to use the longer legal-size format. Upon learning from that OCD wouldn't start work on it for six weeks or so, I asked him for a memo on subject, format, proposed title, etc., which we could buck to OIC for approval.					25X1A
